SUBJECT: Research Project

The Research Review Committee has reviewed a research project in which your school has been asked to participate.

Project Title: "The Effects of a 3-Hour, After School Bout of Sedentary Behavior vs. Active Behavior on Reward and Cognitive Center Activation in Children Ages 8 to 9 Years Old"

Researcher: Mary White, Exercise Science Department, BYU

Subject to your final approval, District-level permission has been granted for the above researcher to place flyers in the office area of your school for purposes of making parents aware of, and inviting interested parents to participate in, a study involving after-school behaviors.

This study is not sponsored by, or affiliated with, the Jordan School District. Jordan School District's participation is limited to the placement of flyers in the office area.

Please contact Clyde Mason or Ben Jameson if you have further questions about this communication.

Thank you.
