Dear Ryan Robinson:

Your request to conduct a research project in the Jordan School District concerning “Data-Based Decision-Making Tool” has been given district-level approval by the District Research Review Committee according to the parameters of the study listed in your application.

Although you have received Research Review Committee approval, this decision does not obligate a district department or school to participate if circumstances or events are such that the research would create problems or would be overly burdensome. You will now need to contact Matthew Tranter, principal of Copper Hills High School, to obtain his approval to conduct your study.

Please send a copy of your final findings, conclusions, and recommendations from the study to the Assessment, Research & Accountability Department. Thank you for your interest in conducting research in Jordan School District.

Sincerely,

Ben Jameson

Ben Jameson, Member
Research Review Committee
