The Research Review Committee has reviewed a research project in which your school has been asked to participate.

Project Title: "Drive Out Diabetes: A Diabetes Prevention Initiative for Teens

Applicant: Nica Clark, University of Utah

The project has been approved by the District Research Review Committee. The applicant has been directed to contact you to discuss the extent of the project and to obtain your permission to conduct the study at your school. Participation in the study is at your discretion. If you have questions or concerns relating to participation, please contact Ben Jameson at 801-567-8243.

The project will involve your health department and 10th grade students enrolled in health classes. The researcher indicated that your health department was already on board with the study. Signed parent permission will be required for students to participate in the various measurements and surveys for the study, but all students may participate in the six lessons taught by the research team.

Thank you for your assistance.
