- Login to PearsonAccess^{next} and go to “Testing” and then select “Sessions.”

- Type “Teacher” into the search bar

- You will see a list of all of the testlets available to preview

A screenshot of the Sessions page. The page has a blue header with 'Sessions' and a link 'Go to Students in Sessions'. Below the header, there are two tabs: 'Tasks' (0 Selected) and 'Sessions' (0 Selected). The 'Sessions' tab is active. Below the tabs, there is a search bar with 'teacher' entered and a 'Search' button. To the left of the search bar, there are filters for 'Session Status', 'Organization', and 'Test'. Below the search bar, there is a table with 89 results. The table has columns: Session, Session Status, Scheduled Start Date, Test, # Students, and Actual Start Date. The table shows three rows of results:

Session	Session Status	Scheduled Start Date	Test	# Students	Actual Start Date

- You can filter the teacher session to find the testlet that you would like to preview by using the filters on the left-hand side of the screen. Type the first few letters of the testlet you would like to preview. I typed in the word “Life” to filter for life science, and then I selected Standard 1 form A from the list that populated.

- The first time someone visits a particular session, it will need to be prepared and started.
- Print off the ticket from the resources page.
- Login through TestNav using the test ticket information
- Tab through the testlet (don’t answer the questions or click submit – otherwise the next person who wants to view the testlet will have to create a new test session for the testlet to be reviewed another time).
